

PROFESSIONAL EXPERIENCE

Hello Fresh, Quality Assurance Specialist

May 2024 – December 2024 | Barleben, Germany

- Error Resolution and Quality Assurance: Identified and fixed system problems, product inconsistencies, and allocation difficulties in the Double Check, Add-Nok, and Hybrid departments, resulting in correct and timely order fulfillment.
- Process Optimization: Implemented solutions to minimize mistake rates and increase operational efficiency, resulting in improved quality control and streamlined workflows within the team.

ARHAM SHARE CONSULTANT PVT LTD, Web Developer (Jr. Software Executive)

April 2021 – June 2022 | Surat, India

- Developed an analytics solution using Laravel, JavaScript, Ajax, and jQuery, which improved data visualization and increased productivity by 25%.
- Database Optimization and Improved high-traffic application load times by 35% using SQL Server query and schema optimization.
- API Integration with used third-party APIs (Razorpay, SEBI, and bank APIs) to enhance application functionality and user experience.

Trueline Solution, Internship in Web Development Using Codeigniter Framework

November 2019 – April 2020 | Surat, India

- Analyzed and debugged 50+ code issues within PHP, JavaScript, and CSS frameworks, enhancing overall application stability and user satisfaction; implemented effective solutions that reduced recurring problems by 30%.
- Developed "Offersnearme" web application platform, The main area of focus is to make that project to users get offers from the shop to their nearest area.

EDUCATION

Master of Information Technology and Electrical Engineering, Hochschule Wismar University of Applied Sciences

September 2022 – present | Wismar, Germany

- Selected Aspects of Automation
- Network Security Management
- Integrated Circuit Design
- Project Seminar
- Microsystems Technology
- Quality Management

Bachelor in Computer Application (BCA), Shri Shambhubhai V. Patel College of Computer Science and Business Management

August 2017 – April 2020 | Surat, India

- Advanced C Programming, Object Oriented & Java Programming
- PHP, MySQL, Mathematics, Organization Structure & Behaviour Database Management Systems, Web designing, Linux, Apache.

Diploma in Power Electronics, Gujarat Technological University (GTU)

August 2015 – March 2018 | Surat, India

- Digital Electronics, Python (Programming Language), Programmable Logic Controller (PLC)
- Communication, Presentations, Analytical Skills, Critical Thinking

Hardik Raval

Embedded Software Engineer

✉ hardik.r2000@gmail.com ☎ +49 176 85919323

📍 Wismar, Germany 🔗 linkedin.com/in/hardikgraval

SKILLS

Programming Languages

- C, C++, Python, MicroPython, Matlab

Frontend & Backend Development

- PHP (Laravel/CodeIgniter), JavaScript, Ajax, HTML, CSS, Microsoft Office

Databases

- MySQL, SQL Server

LANGUAGES

German (B1)

English (C1)

Gujarati / Hindi (Native)

CERTIFICATES

- Cisco Networking Academy :- "IoT Fundamentals connecting things" & "CCNA v7 Introduction to Networking"

PROJECTS

Thesis: Investigation of a 32-bit Sigma-Delta Converter for Generation of Random Signals

May 2025 – Present

- Designed a custom PCB with ADS1262 (32-bit Sigma-Delta ADC) (Add external noise source) and implemented SPI communication using Raspberry Pi 4/Raspberry Pi Pico 2 with Python/MicroPython.
- collected and analyzed 1-bit data streams at different clock rates from both internal and external noise sources.
- Evaluated randomness using NIST-style tests and visualized results through a PHP/MySQL/Chart.js-based web dashboard

Optimization task to obtain the best values for the two-compartment model using the existing data and the least squares method.

April 2023 – June 2023

- Optimized parameters for a two-compartment model using ODEs and least squares, comparing Boost (general-purpose) and Ibex (interval arithmetic) libraries.

Special Aspects Automation Project-Smart Baby Cradle using IoT

January 2023 – February 2023

- Designed an IoT-based system using sensors, Raspberry Pi, and Arduino, storing data on ThingSpeak for real-time global access via Python.
